DETAILED ACTION

Priority

1. Applicant has not complied with one or more conditions for receiving the benefit of an earlier filing date under 35 U.S.C. 120 as follows:

This application is claiming the benefit of a prior filed nonprovisional application under 35 U.S.C. 120, 121, or 365(c). Copendency between the current application and the prior application is required. In this case, the parent application (09/939,299) became abandoned on July 6, 2001 (no extension of time was filed), and the instant application was filed on August 3, 2001. Thus, the applications were not copending, and the priority claims under 35 USC §119 and §120 herein are not valid.

Oath/Declaration

2. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because it contains a foreign priority claim which is not valid. A new oath or declaration is required that does not contain the priority claim.

Specification

3. The disclosure is objected to because of the following informalities: The above-referenced priority claim was filed in the preliminary amendment of August 3, 2001. Deletion of this priority claim is required.

Claim Objections

4. Claims 5 and 6 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claims 5 and 6 depend from claim 1, which has been canceled. Accordingly, claims 5 and 6 are in improper dependent form.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 4-7 are rejected under 35 U.S.C. 102(b) as being anticipated by EP 644604.

Regarding claim 4, the reference teaches a plurality of battery modules, each battery module comprised of a plurality of cells (see Example 9; Fig. 2A). The cells of one module are held

together independently of the cells of another module by a holder (15) (see Figs. 2A and 2B). The cells in each module have convex portions (10) which coincide to create spaces between the cells. Regarding claims 4 and 5, the modules are arranged to receive cooling medium in parallel and the cooling medium flows in a vertical direction toward the top (terminal side) of the cells (see Example 9). Regarding claim 7, the modules are held to each other by a carrier (see Example 9). Regarding claim 4, the convex portions may also be disposed horizontally with respect to the terminals (see claim 6 of the reference).

Thus, the instant claims are anticipated.

Conclusion

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jonathan Crepeau whose telephone number is (703) 305-0051 (prior to December 17, 2003) or (571) 272-1299 (after December 17, 2003). The examiner can normally be reached Monday-Friday from 9:30 AM - 6:00 PM EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Randy Gulakowski, can be reached at (703) 308-4333. The phone number for the organization where this application or proceeding is assigned is (703) 305-5900. Additionally, documents may be faxed to (703) 872-9310 (for non-final communications) or (703) 872-9311 (for after-final communications).
